School of Computing & Informatics Technology

A Research Proposal Submitted to the Directorate of Research and Graduate Training in Partial Fulfilment of the Requirements for the Award of the Degree of Master of Science in Computer Science of Makerere University

Supervisors

Prof. Denish Azamuke
Dr. Denish Azamuke
Mr. Denish Azamuke

June 2024
## Contents

1 Introduction 
   1.1 Background ......................................................... 1
   1.2 Problem Statement .................................................. 1
   1.3 Objectives of the Study ............................................. 1
      1.3.1 Main Objective ................................................. 1
      1.3.2 Specific Objectives ............................................ 1
   1.4 Significance of the Study .......................................... 1

2 Literature Review 
   2.1 Neural Networks ..................................................... 2

3 Methodology 
   3.1 Mapping of Specific Objectives to Method .......................... 2

Appendices 

Appendix A : Work Plan
List of Tables

1  Summary of specific objectives mapped to methods. . . . . . . . . . . . . . . 2
2  Summary of the work plan. . . . . . . . . . . . . . . . . . . . . . . . . . . . 4
## List of Abbreviations

</table>
1 Introduction

1.1 Background

Money laundering is a [1] [2]

1.2 Problem Statement

1.3 Objectives of the Study

1.3.1 Main Objective

The main objective of the study is....

1.3.2 Specific Objectives

This research will especially

(i) Identify properties....

(ii) Design and implement....

(iii) Evaluate and validate....

1.4 Significance of the Study
2 Literature Review

This section discusses.....

This subsection discusses some of the machine learning techniques.......  
Xuan et al. [3]...

2.1 Neural Networks

Ebenezer et al. [4]...

The state of art [5].....

3 Methodology

This section discusses the data, and some of the machine learning models that shall be....

3.1 Mapping of Specific Objectives to Method

This subsection provides a summary of the mapping of specific objectives of the research study to the methods that will be used.
