Hello ISMIR	2022

**Table 1.** Table captions should be placed below the table.

## 5. FIRST LEVEL HEADINGS

First level headings are in Times 10pt bold, centered with 1 line of space above the section head, and 1/2 space below it. For a section header immediately followed by a subsection header, the space should be merged.

### 5.1 Second Level Headings

Second level headings are in Times 10pt bold, flush left, with 1 line of space above the section head, and 1/2 space below it. The first letter of each significant word is capitalized.

#### 5.1.1 Third and Further Level Headings

Third level headings are in Times 10pt italic, flush left, with 1/2 line of space above the section head, and 1/2 space below it. The first letter of each significant word is capitalized.

Using more than three levels of headings is highly discouraged.

## 6. FOOTNOTES AND FIGURES

### 6.1 Footnotes

Indicate footnotes with a number in the text.<sup>1</sup> Use 8pt type for footnotes. Place the footnotes at the bottom of the page on which they appear. Precede the footnote with a 0.5pt horizontal rule.

### 6.2 Figures, Tables and Captions

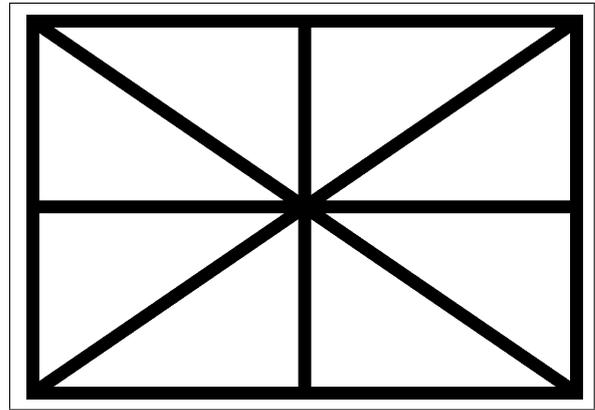

All artwork must be centered, neat, clean, and legible. All lines should be very dark for purposes of reproduction and art work should not be hand-drawn. The proceedings are not in color, and therefore all figures must make sense in black-and-white form. Figure and table numbers and captions always appear below the figure. Leave 1 line space between the figure or table and the caption. Each figure or table is numbered consecutively. Captions should be Times 10pt. Place tables/figures in text as close to the reference as possible. References to tables and figures should be capitalized, for example: see Figure 1 and Table 1. Figures and tables may extend across both columns to a maximum width of 17.2cm.

## 7. EQUATIONS

Equations should be placed on separate lines and numbered. The number should be on the right side, in parentheses, as in Eqn (1).

$$E = mc^2 \quad (1)$$

<sup>1</sup> This is a footnote.

**Figure 1.** Figure captions should be placed below the figure.

## 8. CITATIONS

All bibliographical references should be listed at the end of the submission, in a section named “REFERENCES,” numbered and in the order that they first appear in the text. Formatting in the REFERENCES section must conform to the IEEE standard (<https://ieeauthorcenter.ieee.org/wp-content/uploads/IEEE-Reference-Guide.pdf>). Approved IEEE abbreviations (Proceedings → Proc.) may be used to shorten reference listings. All references listed should be cited in the text. When referring to documents, place the numbers in square brackets (e.g., [1] for a single reference, or [2–4] for a range).

**As submission is double blind, refer to your own published work in the third person. That is, use “In the previous work of [1],” not “In our previous work [1].” If you cite your other papers that are not widely available (e.g., a journal paper under review), use anonymous author names in the citation, e.g., an author of the form “A. Anonymous.”**
