To use this template, you can copy and just edit/add slides!

This is because all of the color customization occurs in the "Customize Themes" section in lines 12-51 of the code.

The remainder of these slides serve as an example to show all the features you can use: bullets, buttons, sections, etc.

This was a labor of love, I hope you like it!
Another Title
and a subtitle!

Look at the code of this slide to see how columns made this formatting look nice.
Yet another title

You can use bullets too:

- Like this one
- & this one
A title

• You can also nest sub-bullets
  • Sub-bullet 1
  • Sub-bullet 2
  • Sub-bullet 3
  • Sub-bullet 4

You can add citations\(^1\) too

Below is a button that links to a slide in the appendix

\(^1\)Tjøstheim, Otneim, and Støve 2018.
The Test Statistic

Here is a made up equation:

$$\hat{A} = \bar{m} - \hat{m}_S$$

Notice how these buttons are centered and evenly spread out:
No way, another title!

1. Instead of bullets, you can index by number too

2. like this
